Subject: For stronger smarter gun laws

I am a resident of Sandy Hook, CT, and a long time supporter of sensible gun laws. I also grew up in a hunting household. The two are not mutually exclusive. Please support stronger domestic abusers gun restrictions and stronger safe storage laws.

Keeping guns out of the hands of domestic abusers is a life saving measure and I encourage legislators to support strong legislation that does just that.

Safe gun storage is also an important public safety measure. No child should die because a gun owner neglected to store a weapon safely. In fact, I support prosecution of gun owners whose failure to properly store a weapon results in injury or death of another.

Thank you for your consideration.
